DDA, MCD, AND SURVEY OF INDIA SIGN MOU TO COMBAT LAND ENCROACHMENT THROUGH DRONE SURVEYS

DDA, MCD and Survey of India sign MoU for drone surveys to combat land encroachments in Delhi

Hon'ble Lt. Governor spearheaded the move by bringing all the 3 agencies together

Drone survey to provide high-resolution data on real time basis

On 30 August 2024, the Delhi Development Authority (DDA), under the leadership of Lt. Governor and Chairman Shri VK Saxena, took a significant step forward by signing a tripartite Memorandum of Understanding (MoU) with the Municipal Corporation of Delhi (MCD) and the Survey of India (Sol). This initiative aimed to resolve the long-standing issue of land status uncertainties in the National Capital and safeguard government lands from encroachment and unauthorized constructions.

The MoU outlined a plan to conduct a comprehensive drone survey across Delhi to determine the current status of lands owned by various government agencies. The drone survey was designed to provide high-resolution images and accurate data, which would facilitate precise boundary demarcation and ground-truthing of khasra layers. The aerial imagery obtained would be instrumental in identifying and monitoring encroachments, enabling authorities to take swift and effective action.

This collaboration was expected to enhance coordination among DDA, MCD, and other departments, ensuring better resource utilization and comprehensive coverage of all areas under their jurisdictions. With the signing of this MoU, DDA and MCD aimed to improve their ability to detect encroachments, prevent unauthorized constructions, and contribute to the planned development of Delhi as per the Master Plan. The MoU was officially signed in the presence of senior officials from all three agencies.
